Address: 48, Odunguwa Street, Bariga, Lagos Nigeria

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Cloud/DevOps enthusiast with hands-on experience in cloud infrastructure, monitoring tools. Adept at troubleshooting, application performance monitoring, and collaborating within technical teams. Passionate about leveraging technology to optimize operations and improve user experiences.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, Bash Scripting (Linux)
- **Platforms/Tools:** AWS (Amazon Web Services), Linux, Docker, GitHub, Gitlab CI
- **Soft Skills:** Effective communication, team collaboration, leadership, problem-solving, time management, adaptability, flexibility, critical thinking, attention to detail

WORK EXPERIENCE

Infrastructure/DevOps Trainee Yaba, Lagos (Remote)
Bincom Dev Center | Apprenticeship August 2024 - Present

- Developed skills in cloud computing, focusing on AWS services and infrastructure management.
- Gained hands-on experience with containerization technologies, including Docker.
- Document technical processes and create detailed reports for deployment procedures
- Collaborated with team members to automate deployment processes and improve operational efficiency.
- Track and analyze system metrics to ensure optimal performance

Coca-Cola HBC Ibadan, Oyo State
Engineering Intern December 2022 – March 2023

- Assisted the maintenance planner in scheduling and coordinating maintenance activities.
- Monitored and analyzed production metrics using SAP, improving workflow efficiency by 15%.
- Created detailed maintenance reports and documentation for operational processes
- Collaborated with team members on various projects, enhancing teamwork and communication skills.
- Gained hands-on experience in supply chain management, production processes, and maintenance planning.

PROJECTS

S3UploaderCLI

August 2024

- Developed a Bash script to upload multiple files from the home directory to a specified AWS S3 bucket.
- Generates temporary pre-signed URLs for each uploaded file, enhancing accessibility and security
- Created comprehensive documentation for setup and troubleshooting.
- [Ore02/S3UploaderCLI \(github.com\)](#)

Static Website Deployment with GitLab CI/CD & Docker

October 2024

- Developed and deployed a static website using GitLab CI/CD and Docker, streamlining the development and deployment process.
- Created a comprehensive GitLab CI/CD pipeline that automated testing, building, and deployment of the website.
- Created detailed documentation for deployment procedures and incident response

EDUCATION

Federal University of Technology Akure

Akure, Ondo State

Bachelor of Science in Industrial and Production Engineering

February 2024

- **Relevant Coursework:** Operations Research, Manufacturing Processes, Quality Control, Industrial Automation, Engineering Economics

CERTIFICATES

AWS Certified Cloud Practitioner

October 2024

- Gained foundational knowledge of AWS cloud services, architecture, and best practices for cloud computing.
- Developed skills in cloud concepts, security, compliance, and pricing models to effectively support organizational needs.

LEADERSHIP AND ACTIVITIES

**Google Developer Group (GDG) Akure
Member**

Akure, Nigeria
Sep 2020 – Present

- Participated in workshops and meetups focused on Google technologies, enhancing technical skills and knowledge.
- Contributed to community projects and hackathons, fostering collaboration and innovation among members.
- Assisted in organizing events and promoting GDG activities within the local tech community.

SKILLS & INTERESTS

Language: English (Proficient), Yoruba (Native).

Interests: Football (soccer), self-improvement novels, gaming, movies.
